EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the drawings:

Amend the drawings as indicated in red ink on the attached sheets.

In the specification:

Page 2, line 3: after "2001" insert --, now abandon,--.

Page 6, last line: delete "32" and substitute --33--.

Page 8, line 4: delete "nozzle" and substitute --valve--.

Page 8, line 13: delete "41" and substitute --26--.

In claim 1:

Line 31: before "one way fill valve", delete "the" and substitute --a--.

Claims 1-7 are allowed. It is noted that Figure 1 was amended since reference character 62 (page 6, line 17) was not present in the drawings (see the parent application) and Figure 8 was amended since reference character 58 (page 8, line 20) was not present in the drawings and reference character 64 is not present in the specification. The specification was amended to correct minor informalities and claim 1 was amended because there was no antecedent basis for "the one way fill valve".
